

EFFECTIVE DATE: March 20, 1995.

ADDRESSES: Committee for Purchase From People Who Are Blind or Severely Disabled, Crystal Square 3, Suite 403, 1735 Jefferson Davis Highway, Arlington, Virginia 22202-3461.

FOR FURTHER INFORMATION CONTACT: Beverly Milkman, (703) 603-7740.

SUPPLEMENTARY INFORMATION: On July 15, 1994, the Committee for Purchase From People Who Are Blind or Severely Disabled published notice (59 FR 36169) of proposed addition to the Procurement List.

Comments were received from one of the current contractors, which indicated that addition of these transparency films to the Procurement List would have a severe impact on the company due to lost sales and loss of the ability to purchase raw materials in large enough quantities to get more favorable prices from its suppliers. The percentage of the company's sales which it would lose is not large enough, in the Committee's judgement, to constitute severe adverse impact on the contractor. The contractor did not indicate how great an impact it would sustain by purchasing raw materials in lesser quantities, except to speculate that it could be placed at a great competitive disadvantage in both the commercial and Government markets. Accordingly, the Committee has concluded that even if this impact is added to the sales loss, the contractor will not suffer severe adverse impact as a result of addition of these transparency films to the Procurement List.

After consideration of the material presented to it concerning capability of qualified nonprofit agencies to provide the commodities, fair market price, and impact of the addition on the current or most recent contractors, the Committee has determined that the commodities listed below are suitable for procurement by the Federal Government under 41 U.S.C. 46-48c and 41 CFR 51-2.4. I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. The action will not result in any additional reporting, recordkeeping or other compliance requirements for small entities other than the small organizations that will furnish the commodities to the Government.

2. The action does not appear to have a severe economic impact on current contractors for the commodities.

3. The action will result in authorizing small entities to furnish the commodities to the Government.

4. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 46-48c) in connection with the commodities proposed for addition to the Procurement List.

Accordingly, the following commodities are hereby added to the Procurement List:

Transparency Film, Xerographic
7530-00-NIB-0099 (Clear)
7530-00-NIB-0100 (Color)
7530-00-NIB-0101 (Clear w/strip).

This action does not affect current contracts awarded prior to the effective date of this addition or options exercised under those contracts.

Beverly L. Milkman,
Executive Director.

Department of the Navy

Notice of Intent to Prepare an Environmental Impact Statement/ Environmental Impact Report for Treated Effluent Disposal from Marine Corps Base Camp Pendleton to the City of Oceanside, California

Pursuant to the National Environmental Policy Act as implemented by Council on Environmental Quality regulations (40 CFR Parts 1500-1508), and pursuant to the California Environmental Quality Act (CA Public Resources Code Sec. et. seq. 21000) the U.S. Marine Corps and City of Oceanside intend to prepare a joint Environmental Impact Statement/ Environmental Impact Report (EIS/EIR) to evaluate the environmental effects of the disposal of treated effluent from five existing sewage treatment plants at Marine Corps Base (MCB) Camp Pendleton to the City of Oceanside, California.

The proposed action would construct two new sewage pipelines to connect five existing sewage treatment plants in the Santa Margarita Basin in MCB Camp Pendleton to existing sewage outfalls in the City of Oceanside. One proposed pipeline would transport treated effluent from three existing sewage treatment plants at MCB Camp Pendleton to the existing outfall serving the La Salina sewage treatment plant in the City of Oceanside. A second proposed pipeline would transport treated effluent from two existing sewage treatment plants at MCB Camp Pendleton to the existing outfall serving the San Luis Rey sewage treatment plant in the City of Oceanside. All effluent from these pipelines at MCB Camp Pendleton would then be transported for ocean disposal via existing City of Oceanside land and ocean outfalls. No

additional treatment of MCB Camp Pendleton effluent would be provided by City of Oceanside sewage treatment plants.

Alternatives currently under consideration that will be addressed in the EIS/EIR include construction of a new tertiary sewage treatment plant at MCB Camp Pendleton, upgrade and consolidation of existing sewage treatment plants, injection wells, percolation ponds, and no action. Alternative pipeline alignments will also be evaluated.

Major environmental issues that will be addressed in the EIS/EIR include land use, hydrology, water quality, air quality, biological resources, cultural resources, noise, traffic/circulation/access, public services and utilities, human health and safety, and hazardous materials and waste management.

The Department of the Navy published a Notice Of Intent in the **Federal Register** on September 26, 1991, initiating a scoping process for preparation of an EIS/EIR for a sewage effluent compliance project at MCB Camp Pendleton for the San Onofre and Santa Margarita Basins. A scoping meeting was held in the City of Oceanside on October 17, 1991, and an EIS/EIR was begun. Since that time, the proposed action has been revised as additional studies have been undertaken, and additional alternatives have been identified that needed to be evaluated. While the EIS/EIR for the San Onofre basin is continuing, the EIS/EIR for the Santa Margarita basin is beginning. Therefore, the scoping process is being reopened until March 6, 1995, in order to collect additional comments on the scope of issues to be addressed in the EIS/EIR for the Santa Margarita basin proposed action. However, no additional scoping meetings will be held.

Agencies and the public are invited and encouraged to provide written comment on scoping issues. To be most helpful, scoping comments should clearly describe specific issues or topics which the commentator believes the EIS/EIR should address. Written statements and/or questions regarding the scoping process should be mailed no later than March 6, 1995 to Commanding Officer, Southwest Division, Naval Facilities Engineering Command, 1220 Pacific Highway, San Diego, California 92132-5190, (Attn: Ms. Sheila Donovan, Code 2032), telephone (619) 532-3624.

Dated: February 13, 1995.

Robert Watkins,

Colonel, USMC, Head, Land Use and Military Construction Branch, Facilities and Services Division, Installations and Logistics Department.
